

EarlyEdU

The EarlyEdU Alliance is a higher education collaboration committed to making bachelor's degrees accessible, affordable, and relevant for the early childhood workforce.

The EarlyEdU Alliance developed in-person and online competency-based higher education courses and the Coaching Companion, a video sharing and coaching platform that enables students and instructors to engage in meaningful feedback dialogue via a virtual community of practice.

Join the EarlyEdU Alliance to become part of a diverse community of higher education, government, non-profit, and philanthropic stakeholders dedicated to strengthening the nation's early education workforce.
